

CONTENTS - VOLUME XIV, 1988

No. 1

Monobactam antibiotics in subinhibitory concentrations enhance opsonophagocytosis and serum bacteriolysis in certain <i>Escherichia coli</i> strains VERINGA E., BOX A., ROZENBERG-ARSKA M., VERHOEF J.	1
<i>In-vitro</i> activity of antifungal agents in combination with four quinolones PETROU M.A., ROGERS T.R.	9
Itraconazole: increased activity by chlorhexidine SIMONETTI N., D'AURIA F.D., STRIPPOLI V., LUCCHETTI G.	19
On the kinetic interaction between ceftriaxone and some β -lactamases AMICOSANTE G., MACCARRONE M., FRANCESCHINI N., OLIVA B., SEGATORE B., ORATORE A.	25
Detectability and measurability of amoscinate in plasma by TLC and HPLC KOFI-TSEKPO W.M., KAREKEZI C.W.	31
A pharmacokinetic study of clofocetol in human plasma and lung tissue by using a microbiological assay DANESI R., GASPERINI M., SENESI S., FREER G., ANGELETTI C.A., DEL TACCA M.	39
Experience with antimicrobial combinations in urinary tract infections SABBOUR M.S., OSMAN L.M.	45
Binding profile of trazodone and dapiprazole to some brain receptors VALERI P., PALMERY M., SILVESTRINI B.	53
Glutameric transmission and cardiovascular apparatus in normotensive rats LAMPA E., BERRINO L., SUSANNA V., ANGRISANI M., MARRAZZO R., MAIONE S., DE SANTIS D., FICI F., MARMO E.	59
Effects of L-acetylcarnitine treatment and its interruption on dentate gyrus synapses in ageing rat hippocampus BADIALI DE GIORGI L., BONVICINI F., BIANCHI D., BOSSONI G., LASCHI R.	71

Nos. 2/3

Introduction A new approach to the treatment of hypertensive disease CLOSTRE F., BRAQUET P.	71
General pharmacology of cicletanine CLOSTRE F., ETIENNE A.	73
Comparison of cicletanine with other antihypertensive drugs in SHR-SP models MALHERBE E., LE HEGARAT M., CLOSTRE F., BRAQUET P.	83
<i>In vivo</i> and <i>in vitro</i> effects of cicletanine in spontaneously hypertensive rats AUGUET M., GUILLON J.M., DELAFLLOTTE S., LE HEGARAT M., PIROTZKY E., CLOSTRE F., BRAQUET P.	89
Antihypertensive effect of non-diuretic doses of cicletanine on a stress-induced model in the rat CASTRO A., FLORENTINO A., FUENTES J.A.	97
Phosphoinositides and cicletanine MARCHE P., GIRARD A.	103
A patch-clamp study of the effects of cicletanine on whole-cell calcium current in ventricular myocytes GISBERT M.-P., MERY P.-F., FISCHMEISTER R.	109
Cicletanine and eicosanoids in cultured vascular smooth muscle cells DORIAN B., DARET D., BRAQUET P., LARRUE J.	117
Modulation of <i>in vivo</i> generation of prostanooids by drugs affecting membrane ion transport DEBY C., BOURGAIN R.H., DEBY-DUPONT G., PINCEMAIL J., GARAY R.P., BRAQUET P.	123
Enhancement of prostacyclin generation by cicletanine (an <i>in vivo</i> investigation) BOURGAIN R.H., DEBY C.	135
The role of histamine in the cardiovascular system CABANIE M., GODFRAIND T.	141

Contents Index

<i>In vitro</i> cardiovascular antihistamine properties of cicletanine in comparison with diphenhydramine AUGUET M., DELAFLOTTE S., HELLEGOUARCH A., GUILLON J.M., BARANES J., PIOTZKY E., CLOSTRE F., BRAQUET P.	149
Inhibition of histamine-induced Ca^{2+} efflux in cultured vascular smooth muscle cells by an antihypertensive drug, cicletanine LONCHAMPT M.O., GOULIN J., CHABRIER P.E., BRAQUET P.	155
Antihistaminic properties of cicletanine in human isolated coronary arteries SCHOEFFTER P., GODFRAIND T.	159
Effects of cicletanine in the left circumflex coronary artery occlusion-reperfusion canine model of sudden death: analysis of 107 experiments using Cox's proportional hazards model JOUVE R., PUDDU P.-E., LANGLET F., LANTI M., GUILLEN J.-C., ROLLAND P.-H., SERRADIMIGNI A.	167
Clinical pharmacokinetics of cicletanine hydrochloride FREDJ G.	181
Pharmacokinetics of cicletanine in patients with impaired renal function JUNGERS P.	189
Review of three studies to determine the efficacy and tolerance of cicletanine in the short- and long-term treatment of essential hypertension FODOR G.P., GUINOT Ph.	195
Efficacy and tolerance of cicletanine, a new antihypertensive agent: overview of 1226 treated patients TARRADE T., GUINOT Ph.	205
Study of the effects of cicletanine on the renin-angiotensin-aldosterone system BIPPI H., GUINOT Ph.	215
Haemodynamic effects of an antihypertensive diuretic substance on the forearm circulation of patients with essential hypertension BOUTHER J.A., SAFAR M.E., DESCHAMPS E., TARRADE T.	221
The effects of cicletanine, a new antihypertensive compound, on the flare and weal response to histamine DEWLAND P.M., WRIGHT T.	225

No. 4

Ultrastructure of <i>Mycoplasma pneumoniae</i> exposed to macrolide antibiotics during cultivation on a glass surface and in an organ culture, in relation to their mycoplasma-killing activity WATANABE T.	231
Prostatic tissue concentrations and serum levels of Myocamicin in human subjects FRASCHINI F., SCAGLIONE F., CICCETTI F., ROSSI M., BORCHI C., ALFANO G., MAIERNA G., BALSAMO V., GATTEI G.	253
Mechanisms of potentiation of antitumor activity of 5-fluoro-2'-deoxyuridine in the adenocarcinoma 755 system by guanosine 5'-monophosphate IIGO M., YAMAIZUMI Z., NAKAJIMA., NISHIMURA S., HOSHI A.	257
Further studies on the pharmacodynamic properties and organ selectivity of octylonium bromide MANZINI S., MAGGI C.A., PARLANI M., SUBISSI A., MELI A.	265
Age-dependent stimulation of assembly and of membrane-association of polysomes in rat brain after treatment with xanthine derivatives <i>in vivo</i> STEFANOVICH V., SCHRÖDER H.C., STEFFEN R., MÜLLER W.E.G.	271
Use of extract of <i>Ruscus aculeatus</i> in venous disease in the lower limbs CAPPELLI R., NICORA M., DI PERRI T.	277
A long-term study on the use of evening primrose oil (Efamol) in atopic children BIAGI P.L., BORDONI A., MASI M., RICCI G., FANELLI C., PATRIZI A., CECCOLINI E.	285
Evening primrose oil (Efamol) in the treatment of children with atopic eczema BORDONI A., BIAGI P.L., MASI M., RICCI G., FANELLI C., PATRIZI A., CECCOLINI E.	291
<i>Letter to the Editor:</i>	
Xanthine derivatives: could a further study of the mechanisms of action yield new therapeutic agents? STEFANOVICH V.	299

No. 5

Leukotriene receptor antagonists. III. Pharmacological and chemical studies with LY137617, a leukotriene D ₄ and leukotriene E ₄ receptor antagonist HERRON D.K., WHITESITT C.A., MALLET B.E., RINKEMA L.E., HAISCH K.D., FLEISCH J.H.	303
Immunopharmacological studies of new 3-benzoyl-4-mercaptobutyric acid derivatives. II. Immunosuppressive effects TAKESHITA K., FUKAZAWA I., NAKAIKE S., KAMEO K., TOMISAWA K., OTOMO S., AIHARA H.	311
Comparative study on effects of 14- and 16-membered macrolides on gastrointestinal motility in unanaesthetized dogs NAKAYOSHI T., IZUMI M., SHINKAI S., FUJITA M.	319
Therapeutic efficacy of ofloxacin, ciprofloxacin and NY-198 in experimentally infected normal and alloxan-induced diabetic mice OBANA Y., NISHINO T.	327
<i>In vitro</i> influence of charcoal on ciprofloxacin activity TORRE D., SAMPIETRO C., QUADRELLI C., BIANCHI W., MAGGIOLO F., OHNMEISS H.	333
The kinetics of SHV-2 plasmid-mediated β -lactamase compared to those of the parent enzyme from which it is derived LABIA R., MORAND A., TIWARI K., PITTON J.S., SIROT D., SIROT J., BEN YAGHLANE H., BOUJENAH A.	335
Itraconazole activity against fungal germination STRIPPOLI V., SIMONETTI N., RETICO A., LUCCHETTI G.	341
Effect of teomorfolin [<i>N</i> -(7'-theophylline acetyl)morpholine], a new drug, on dislipidaemic conditions induced in the rat FRANZONE J.S., CIRILLO R., REBOANI M.C., TORRIELLI M.V., PERNIGOTTI L.M.	347
Electrophysiological effects of the new cardioactive drug CERM 4205: A comparative study in an animal model and in man BRUGADA J., LAMAR J.C., BOISSON P., MASSE CH., PUECH P., SASSINE A.	355
Activation of antioxidant activity in natural medicinal products by heating, brewing and lipophilization. A new drug delivery system NIWA Y., KANO H. T., KASAMA T., NEGISHI M.	361

No. 6

Correlation of <i>in vitro</i> activities of the fluoroquinolones to their <i>in vivo</i> efficacies FERNANDES P.B., SWANSON R.N.	375
Structure-activity relationships in quinolone antibacterials: Design, synthesis and biological activities of novel isothiazoloquinolones CHU D.T.W., FERNANDES P.B., CLAIBORNE A.K., SHEN L., PERNET A.G.	379
Gaps and perspectives of new fluoroquinolones NEUMAN M., ESANU A.	385
Safety profile of ofloxacin in elderly patients FOSTINI R., GIRELLI M., DALLE VEDOVE P., BENEDETTI M., RECCHIA G.	393
Mode of action of BO-1341: Transport pathway through the outer membrane of <i>Escherichia coli</i> SANADA M., HASHIZUME T., MATSUDA K., NAKAGAWA S., TANAKA N.	397
Trospectomycin, a novel spectinomycin analogue: Antibacterial activity and preliminary human pharmacokinetics ZURENKO G.E., FORD C.W., NOVAK E.	403

Contents Index

	Bacteriological and clinical evaluation of cefotetan in the treatment of severe infections in hospitalized patients ROMANELLI G., AGABITI-ROSEI E., GIUSTINA A., GUARNERA L., MUIESAN M.L., PELIZZARI G., TURANO A.	411
	HPLC reveals famotidine in the urine up to five days after a single 20 mg oral dose BOLOGNA M., NAPOLITANO T., BIORDI L., CARLUCCI G.	419
	Time-course of anti-Xa effects of calcium heparin and low-molecular-weight heparin given s.c.: Insights for thrombosis prevention ROMEO G., SALANITRI G., CATANIA G.	423
No. 7	Antitumour activity of new semi-synthetic anthracyclines containing fluorotolopyranose UMEZAWA K., TAKEUCHI T., KOMURO K., NOSAKA C., KUNIMOTO S., TSUCHIYA T., TAKAGI Y., UMEZAWA S., UMEZAWA H.	429
	Biological properties of ME2303 (FAD-104), a new anthracycline OMOTO S., KONDO S., FUKATSU S., TAKEUCHI T., UMEZAWA K., TSUCHIYA T., UMEZAWA S.	435
	Effect of dosing intervals on efficacy of clarithromycin and erythromycin in mouse infection models FERNANDES P.B., SWANSON R.N., HARDY D.J., MCDONALD E.J., RAMER N.	441
	Comparative <i>in vitro</i> potencies of nine new macrolides FERNANDES P.B., HARDY D.J.	445
	5-Amino-7-(3-amino-1-pyrrolidinyl)-1-cyclopropyl-6,8-difluoro-1,4-dihydro-4-oxo-3-quinoline-carboxylic acid (PD 124,816). Synthesis and biological evaluation of a new class of quinolone antibacterials DOMAGALA J.M., HAGEN S.E., HUTT M.P., SANCHEZ J.P., SESNIE J., TREHAN A.K.	453
	Antifungal peptides with novel specific inhibitors of glucosamine 6-phosphate synthase MILEWSKI S., CHMARA H., ANDRUSZKIEWICZ R., BOROWSKI E., ZAREMBA M., BOROWSKI J.	461
	Unique mechanism of action of an antifungal antibiotic RI-331 YAMAKI H., YAMAGUCHI M., NISHIMURA T., SHINODA T., YAMAGUCHI H.	467
	Arginine 2-mercaptoethane sulfonate and sodium 2-mercaptoethane sulfonate: A comparative study of their effects upon tumour cells MAGNOLFI ZIPOLI G., D'ANCONA S., BERTI T.	473
	Doxofylline and theophylline are xanthines with partly different mechanisms of action in animals FRANZONE J.S., CIRILLO R., BARONE D.	479
	Acetoflenac and paracetamol in episiotomal pain YSCLA A.	491
No. 8	Cefpodoxime proxetil, its <i>in vitro</i> antibacterial activity, affinity to bacterial penicillin-binding proteins, and synergy of bactericidal activity with serum complement and mouse-cultured macrophages YOKOTA T., SUZUKI E., ARAI K.	495
	Mucoid and pigmentation characters can be suppressed by non-anti- <i>Pseudomonas aeruginosa</i> antibiotics in cystic fibrosis: A report of promising preliminary results LAPOINTE J.-R., BOURGET C., LAFLEUR L., LAGACÉ J., MONTPLAISIR S.	501

Development of gentamicin resistance in Gram-negative bacteria in Czechoslovakia and correlation with its usage KETTNER M., KRČMĚRY V.	511
Experimental and clinical evaluation of the biliary pharmacokinetic profile of cefpiramide, a new cephalosporin with high hepatic elimination BROGARD J.M., JEHL F., BLICKLE J.F., ARNAUD J.P., MONTEIL H.	519
<i>In vitro</i> and clinical evaluation of ofloxacin in urinary tract infection and enteric fever TANPHAICHITRA D., SRIMUANG S.	529
Antibacterial activity after a single-dose of norfloxacin, ofloxacin and piperimidic acid detected in urine of volunteers CRUCIANI M., MONZILLO V., NAVARRA A., TINELLI C., CONCIA E.	533
Absence of crystalluria and estimation of renal parameters after oral and intravenous ofloxacin as compared to placebo in healthy volunteers VERHO M., MALERCZYK V., GRÖTSCH H., LORENZ H.	539
Pharmacokinetic profile of cefotetan in different clinical conditions FRASCHINI F., SCAGLIONE F., MEZZETTI M., MERONI M., CICCETTI F., SCARPAZZA P., SCARPAZZA G.	547
Imipenem versus standard therapy in the treatment of serious soft tissue infection GOULD I.M., HUDSON M., MORRIS J., PAGE G., DOUGLAS J.G., SMITH C.C., REID T.M.S.	555
Multidisciplinary approach to the therapy of chronic sinusitis BASSETTI D., CONCIA E., SOLBIATI M., SAMPIETRO M.	559

No. 9

Pretreatment with ICRF-167 allows a marked increase in the total cumulative dose of doxorubicin tolerated by beagle dogs HERMAN E.H., FERRANS V.J., YOUNG R.S.K., HAMLIN R.L.	563
A new antitumour agent, batracylin, selected by a preclinical solid tumour model ATASSI G., DUMONT P., KABBE H.J., YODER O.	571
Inhibition of biosynthetic processes in P388 and Ehrlich ascites cells by cloturin MIKO M., KREPELKA J., MELKA M.	575
Bivalent ligand type β -adrenolytics related to prazosin RAMPA A., DA RE P., VALENTI P., FRIGENI V., SALA R., DELLA BELLA D.	581
Effect of felodipine in refractory hypertension SEIDEMAN P., EKEROTH M., ÖSTMAN J.	587
Effect of long-term treatment with acetyl-L-carnitine on structural changes of ageing rat brain RAMACCI M.T., DE ROSSI M., LUCREZIOTTI M.R., MIONE M.C., AMENTA F.	593
Endogenous cardiac glycoside-like substances in newborns, adults, pregnant women and patients with hypertension or renal insufficiency CLERICO A., BALZAN S., DEL CHICCA M.G., PACI A., COCCI F., BERTELLI A.	603
Dose-related effect of inhaled magnesium sulfate on histamine bronchial challenge in asthmatics ROLLA G., BUCCA C., CARIA E.	609

Contents Index

No. 10	<i>In vitro</i> activity of azithromycin (CP-62,993), a novel macrolide, against enteric pathogens	613
	JONES K., FELMINGHAM D., RIDGWAY G.	
	The <i>in vitro</i> activity of ramoplanin (A-16686/MDL 62,198), vancomycin and teicoplanin against methicillin-susceptible and methicillin-resistant <i>Staphylococcus</i> spp.	617
	O'HARE M.D., FELMINGHAM D., GRÜNEBERG R.N.	
	<i>In vitro</i> anti-leishmanial activity of compounds in current clinical use for unrelated diseases	621
	NEAL R.A., ALLEN S.	
	Effect of subminimal inhibitory concentrations of pefloxacin on the piliation and adherence of <i>E. coli</i>	629
	DESNOTTES J.F., LE ROY D., DIALLO N.	
	Effects of five antibiotics on adhesion and haemagglutinating properties of <i>Pseudomonas aeruginosa</i> isolated from cystic fibrosis patients	635
	MARTY N., LAPCHINE L., DOURNES J.L., AGUEDA L., CHABANON G.	
	A high performance liquid chromatography method for the determination of FCE 22101, a novel penem antimicrobial, in serum	645
	BASKERVILLE A.J., FELMINGHAM D., GRÜNEBERG R.N.	
	A micromethod for determination of antimicrobial agents in bone	649
	HEIMDAHL A., CARS O., HEDBERG M., MOVIN G., NORD C.E.	
	A study of Fucidin uptake in ischaemic tissues	655
	KENDALL S.W., ANTRUM R.M., RAMSDEN C.H., KESTER R.C.	
	Clinical and microbiological effects of <i>in vivo</i> miocamycin therapy on oral infections and in surgical prophylaxis	659
	DE LUCA M.	
	Clinical efficacy of carumonam	665
	DRABU Y.J., MEHTAR S., BLAKEMORE P.H.	
	Cinoxacin vs trimethoprim - safety and efficacy in the prophylaxis of uncomplicated urinary tract infections	669
	SEPPÄNEN J.	
No. 11	Antisecretory effect of a PGE ₂ derivative, enprostil (TA/RS-84135): Inhibitory action of amogastrin-stimulated secretion	673
	KOHLI Y., KATOH T., SUZUKI K.	
	Pharmacokinetics and renal accumulation of three iodinated contrast agents. A comparative study of Telebrix®, Hexabrix® and Omnipaque® in the rabbit	679
	MORIN J.P., BOUTELET I., TOUTAIN H., FILLASTRE J.P.	
	Bis-arenoxypropanolamines as potential β -adrenolytics: A reinvestigation	687
	DA RE P., VALENTI P., FABBRI G., FRIGENI V., REGGIANI A., DELLA BELLA D.	
	Effect of erdosteine and its metabolites on tracheobronchial mucus production and transport	693
	SCURI R., GIANNETTI P., PAESANO A.	
	Anti-ischaemic and anti-anginal activity of atenolol, nifedipine and their combination in stable, chronic effort angina	699
	LAI C., ONNIS E., PIRISI R., ORANI E., DELOGU G., CHERCHI A.	

No. 12

A single-blind study of clocapramine and sulpiride in hospitalized chronic schizophrenic patients YAMAGAMI S., KIRIIKE N., KAWAGUCHI K.	707
Pathological brain ageing: Evaluation of the efficacy of a pharmacological aid GUARNASCHELLI C., FUGAZZA G., PISTARINI C.	715
Inhibition of human immunodeficiency virus-associated reverse transcriptase by aminoacridines ATSUMI S., MURAOKA Y., NOGAMI T., HOSHINO T., TAKEUCHI T., UMEZAWA K.	719
Calyculins, potent antitumour metabolites from the marine sponge <i>Discodermia calyx</i> : Biological activities KATO Y., FUSETANI N., MATSUNAGA S., HASHIMOTO K.	723
Biology and mode of action of pure antioestrogens WAKELING A.E., BOWLER J.	729
The relevance of <i>in vitro</i> measurements of opsonophagocytosis to the study of antibiotic-PMN-bacterium interactions <i>in vivo</i> GEMELL C.G.	735
<i>In vitro</i> activity of antimicrobial agents against mycobacteria CASAL M., RODRÍGUEZ F., GUTIERREZ J., RUÍZ P., VILLALBA R.	741
A new tricyclic fluoroquinolone, rifloxacin (MF-934), with interesting antibacterial and pharmacokinetic characteristics SERGE G., CERRETANI D., CERRI D., MOLTONI L.	747
Some pharmacokinetic data on miocamycin. I: Serum, urinary and prostatic levels FURNERI P.M., SCALIA G., GAROZZO A., TEMPERA G.	755
Systemic perioperative prophylaxis in elective oncological colorectal surgery: Cefotetan versus clindamicin plus aztreonam BELLANTONE R., PACELLI F., SOFO L., DOGLIETTO G.B., BOSSOLA M., RATTO C., CRUCITI F.	763
Contents index (1988)	767
Author index (1988)	775
